## **DETAILED ACTION**

### ***Claim Objections***

Claims 1 and 8 are objected to because of the following informalities: Injectate is not a recognized English word. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 2 of claim 5 the parenthesis around "incomplete" render the claim indefinite.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2-4 and 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Pearson et al US 4,974,756.

Pearson et al show an attachment 14 and locking clip 38.

### ***Claim Rejections - 35 USC § 103***

Art Unit: 3754

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pearson et al in view of Heusser et al 6,161,730.

Pearson lacks the attachment a mixer tip. Heusser et al show an attachment a mixer tip. It would have been obvious to one of ordinary skill in the art to have substituted the Pearson et al attachment with a mixer tip as taught by Heusser et al as an alternative equivalent means for coupling a mixer tip to a cartridge.

#### ***Allowable Subject Matter***

Claims 5-7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Xie et al is cited to show another example of a clip attaching a mixer with a cartridge.
